

Portable generator accessories

Paralleling kits

30A Inverter Generator Paralleling Kit

Paralleling cable that connects paralleling ports of two P2500i inverter generators to a TT-30 120V outlet

- Delivers the portability of two smaller generators with the power output of a 5000 watt inverter generator.
- Provides a molded rubber TT-30 120V outlet to power RVs, campers, trailers, or any 120V loads up to 30A.
- Enables easy plug-and-play setup via an illuminated outlet.

50A Inverter Generator Paralleling Kit

50 Amp Inverter Generator Parallel Cord with a NEMA 120V L14-50R Outlet

- Parallels two P4500i or P4500iDF portable generators with each other or with a P2500i portable generator for higher output.
- Provides a molded L14-50R 120V outlet*.

*Not for use with 240V loads.

Weather-resistant generator running covers

Inverter Generator Running Cover*

Weather resistant generator running cover for Cummins Onan inverter generator models

- Allows safe generator operation outdoors and away from windows during inclement weather.
- Protects from wind and rain up to 70mph and snow loads up to 18 inches.
- Enables easy control panel and fuel level viewing at a distance via the transparent apron, with a fold-back panel for easy refueling.

*Works with all Cummins inverter generators excluding the P2500i.

Open Frame Generator Running Cover*

Weather resistant generator running cover for Cummins Onan Open Frame Generator models

- Allows safe generator operation outdoors and away from windows during inclement weather.
- Protects from wind and rain up to 70mph and snow loads up to 18 inches.
- Enables easy control panel and fuel level viewing at a distance via the transparent apron, with a fold-back panel for easy refueling.

*Works with all Cummins open frame portable generators.

Storage covers

Small Generator Storage Cover

Poly-Nylon dustproof storage cover for the Onan P2500i inverter generator

- Enables protection for storage or while traveling to keep out dirt and debris.
- Provides a snug fit via a drawstring hem.

*See running covers for weather-proof applications when generator is in use.

Large Generator Storage Cover

Poly-Nylon dustproof storage cover for all Onan portable generator models larger than the P2500i

- Enables protection for storage or while traveling to keep out dirt and debris.
- Provides a snug fit via a drawstring hem.

*See running covers for weather-proof applications when generator is in use.

Cords

30A 120/240V Manual Transfer Switch Cord

25 ft. (7.6m) SJT jacketed cord with one male and one female L14-30 connector

- Enables connection to a 30A 120/240V manual transfer switch (not sold by Cummins).
- Extends the L14-30R generator receptacle for use with any tool or device with a L14-30P type plug.
- Maintains flexibility and protects loads in hot and cold weather via a durable thermoplastic jacket.

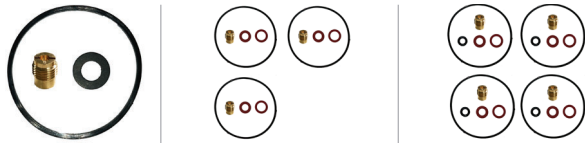

30A 120V Power Distribution Cord

25 ft. (7.6m) SJT jacketed cord with one L14-30P generator plug and four 5-20R household receptacles

- Converts the L14-30R twistlock receptacle to four household type 120V receptacles.
- Expands the number of loads that can be powered from a the 30A 120/240V outlet on Cummins open frame model generators.
- Maintains flexibility and protects loads in hot and cold weather via a durable thermoplastic jacket.

High-altitude carburetor kits

A set of carburetor jets and seals for dealer or customer installation at applications between 2000-7000 ft (610 m)*.

*See manual for instructions regarding how to use serial number to date generator

†Not to be used when operating generator below 2000ft.

‡For dual fuel generators, also purchase the applicable high altitude regulator kit.

EFI high-altitude propane regulator kits

Set of brass fittings for installation on the generator fuel pressure regulator when operating above 2000ft. (610m). Applicable for all Dual Fuel (DF) models.

- Optimizes propane fuel pressure for operation at altitudes above 2000ft. (610m).
- Ensures smooth engine operation and fuel economy at higher elevations.

Planned maintenance kits

P2500i Maintenance Kit

All-in-one maintenance kit including an Air Cleaner Element (one), Spark Plug (one), and 0.4 qt (350ml) Engine Oil Bottle (one).

- Provides the key parts required for annual/300 hour maintenance.
- Aligns to instructions provided in the generator owner's manual.

P9500DF Maintenance Kit

All-in-one maintenance kit including a P9500DF Air Cleaner Element (two), Spark Plug (one), and 1.1 qt (1000ml) Engine Oil Bottle (one).

- Provides the key parts required for annual/300 hour maintenance.
- Aligns to instructions provided in the generator owner's manual.

P4500i/P4500iDF Maintenance kit

All-in-one maintenance kit including a P4500i/P4500iDF Air Cleaner Element (one), Resonator Filter (one), Spark Plug (one), and 0.6qt (600ml) Engine Oil Bottle (one).

- Provides the key parts required for annual/300 hour maintenance.
- Aligns to instructions provided in the generator owner's manual.

Replacement air filters

P2500i Replacement Air Filter Element

Replacement air filter element.

- Removes dust and particles from the combustion air for efficient operation.
- Replaces the element that shipped with the generator if it is too worn or dirty.

P4500i/P4500iDF Replacement Air Filter Element

Replacement air filter element.

- Removes dust and particles from the combustion air for efficient operation.
- Replaces the element that shipped with the generator if it is too worn or dirty.

P9500DF Replacement Air Filter Element

Replacement air filter element.

- Removes dust and particles from the combustion air for efficient operation.
- Replaces the element that shipped with the generator if it is too worn or dirty.

Replacement key fobs

P4500i/P4500iDF Replacement Key Fob

Replacement remote start key fob.

- Enables remote electric start with a handheld key fob to turn the generator on and off remotely
- Replaces the key fob that originally shipped with the generator if lost or broken.

P9500DF Replacement Key Fob

Replacement remote start key fob.

- Enables remote electric start with a handheld key fob to turn the generator on and off remotely
- Replaces the key fob that originally shipped with the generator if lost or broken.

Replacement batteries

P4500i/P4500iDF Replacement Starting Battery

Replacement starting battery for P4500i and P4500iDF portable generators.

- Provides for reliable starting of your portable generator with replacement battery recommended after 3-5 years or when replacement is needed.

P9500DF Replacement Starting Battery

Replacement starting battery for the P9500DF portable generator.

- Provides for reliable starting of your portable generator with replacement battery recommended after 3-5 years or when replacement is needed.
