

Cummins Warranty

All Quantum Transmissions
Worldwide Industrial
(Off-Highway)

Coverage

Products Warranted

This Warranty applies to new Quantum Transmissions (QTR) sold by Cummins and delivered to the first user on or after January 1, 2013, that are used in Oil and Gas Pressure Pumping applications worldwide.

Base Transmission Warranty

This Warranty covers any failures of the Transmission which result, under normal use and service, from a defect in Cummins material or factory workmanship (Warrantable Failure).

Coverage begins with the sale of the Transmission by Cummins. Coverage continues for two years or 2,000 hours of operation, whichever occurs first, from the date of delivery of the Transmission to the first user, or from the date the unit is first leased, rented or loaned, or when the Transmission has been operated for 50 hours, whichever occurs first. If the 2,000 hour limit is exceeded during the first year, Coverage continues until the end of the first year.

These Warranties are made to all Owners in the chain of distribution and Coverage continues to all subsequent Owners until the end of the periods of Coverage.

Cummins Responsibilities

Cummins will pay for all parts and labor needed to repair the damage to the Transmission resulting from a Warrantable Failure.

Cummins will pay for the lubricating oil, antifreeze, filter elements and other maintenance items that are not reusable due to the Warrantable Failure.

Cummins will pay reasonable costs for mechanics to travel to and from the equipment site, including meals, mileage and lodging when the repair is performed at the site of the failure.

Cummins will pay reasonable labor costs for Transmission removal and reinstallation when necessary to repair a Warrantable Failure.

Owner Responsibilities

Owner is responsible for the cost of lubricating oil, filter elements and other maintenance items provided during Warranty repairs unless such items are not reusable due to the Warrantable Failure.

During The Base Transmission Warranty

Owner is responsible for the operation and maintenance of the Transmission as specified in the applicable Cummins Operation and Maintenance Manual. Owner is also responsible for providing proof that all recommended maintenance has been performed.

Before the expiration of the applicable Warranty, Owner must notify a Cummins distributor, authorized dealer or other repair location approved by Cummins of any

Warrantable Failure and make the Transmission available for repair by such facility. Service locations are listed on the Cummins Worldwide Service Locator at cummins.com.

Owner is responsible for communication expenses, meals, lodging and similar costs incurred as a result of a Warrantable Failure.

Owner is responsible for non-Transmission repair, "downtime" expenses, cargo damage, fines, all applicable taxes, all business costs and other losses resulting from a Warrantable Failure.

Limitations

Cummins is not responsible for failures or damage resulting from what Cummins determines to be abuse or neglect, including, but not limited to: operation without adequate lubricants; over torquing; overspeeding; lack of maintenance of lubricating system; improper storage, warm-up, run-in or shifting practices; and unauthorized modifications of the Transmission. Cummins is also not responsible for failures caused by incorrect oil or by water, dirt or other contaminants in the oil.

For all Industrial Transmissions (except those previously mentioned), this Warranty does not apply to accessories that bear the name of another company. Such non-warranted accessories include, but are not limited to: filter and pre-heater.

Brake Pads are not covered.

Failures of hoses supplied by Cummins are not covered beyond the first 500 hours or one year of operation, whichever occurs first.

Parts used to repair a Warrantable Failure may be new Cummins parts, Cummins approved rebuilt parts or repaired parts. Cummins is not responsible for failures resulting from the use of parts not approved by Cummins.

A new Cummins or Cummins approved rebuilt part used to repair a Warrantable Failure assumes the identity of the part replaced and is entitled to the remaining Coverage hereunder.

CUMMINS DOES NOT COVER WEAR OR WEAROUT OF COVERED PARTS.

CUMMINS IS NOT RESPONSIBLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES.

THESE WARRANTIES SET FORTH HEREIN ARE THE SOLE WARRANTIES MADE BY CUMMINS IN REGARD TO THESE TRANSMISSIONS. CUMMINS MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, OR OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

This Warranty gives you specific legal rights, and you may also have other rights, which vary from state to state.
