**New Heartbeat.**

Mechanical ReCon<sup>®</sup> Engines.

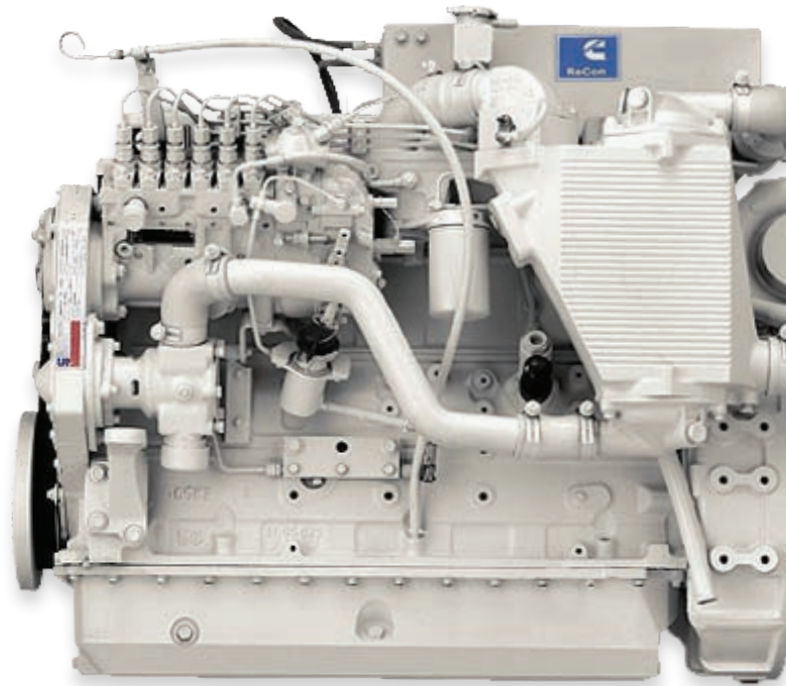

# Repower with a ReCon® Engine.

Don't miss out on clear skies and open water with your vessel tied up for weeks due to an engine down. Many engine rebuilders fix only what is broken – they may not replace worn parts that are borderline or hidden from view. Cummins ReCon® engines are completely disassembled, inspected, remanufactured to factory specifications, performance tested and backed by a full 2-year/2000-hour Cummins warranty. After product installation, all ReCon engines receive an installation review and sea trial from a certified Cummins representative.

For a genuine Cummins solution with less downtime, and performance you can depend on, count on Cummins ReCon engines. Every™ Time.

## The Power of Cummins ReCon Engines:

- After product installation, all ReCon engines receive an installation review and sea trial from a certified Cummins representative
- Complete Repower package: Instrument panel, isolator mounts, 30 ft. extension harness, exhaust elbow, and front mounting brackets
- Available with new transmissions
- Extended warranties available
- Lower cost versus “New”
- Application engineers to help with your installation needs
- Also available, ReCon exchange engines or short/long blocks.
