

Repower with

Quantum Series ReCon[®] Engines.

Clean. Quiet. Reliable.

Cummins Quantum Series ReCon® Engines.

Many engine rebuilders fix only what is broken – they may not replace worn parts that are borderline or hidden from view. Cummins ReCon® engines are completely disassembled, inspected, remanufactured to factory specifications, performance tested and backed by a full 2-year/2000-hour Cummins warranty.

For a genuine Cummins solution with less downtime, and performance you can count on, contact your Cummins service provider and ask about Cummins ReCon engines. With a ReCon engine, you get reliability. Every™ Time.

The Power of Cummins ReCon Engines:

- Smartcraft 1.0, full authority electronic-common rail marine engines
- Complete Repower package: Smartcraft Vessel View, isolator mounts, extension harness, exhaust elbow, Walker Airseps, front mounting brackets
- Available with new ZF or Twin Disc transmissions
- Lower cost versus “New” engines
- Core value for your old Cummins engine
- Application engineers to help with your installation needs
- Extended warranties available

For additional information on the options for repowering your vessel with a marine engine contact your local Cummins service provider. To locate your nearest Cummins service provider, call 1-800-DIESELS™ or visit locator.cummins.com.
