

# CUMMINS DPF KITS FOR AUTOMOTIVE APPLICATIONS

ALWAYS ON

## Genuine Cummins Diesel Particulate Filters (DPF)

The Diesel Particulate Filter (DPF) is a critical component of the modern diesel engine. Designed to capture and keep diesel particulate matter, nitrogen oxide and hydrocarbons from entering the air we breathe, DPFs play a critical role in meeting EPA standards for diesel engine exhaust quality.

When a DPF is at the end of its useful life, it's time for a replacement. Cummins offers both new and remanufactured DPFs and recommends replacement with only OEM specified parts. Genuine Cummins DPFs are the best choice for reliability, performance and customer satisfaction.

## New Cummins DPF Kits

Cummins new and ReCon® DPFs now come conveniently kitted with 2 clamps and 2 gaskets. These new kits are available for EPA 2007, 2010, 2013, and 2017 - ISB, ISC/ISL and ISX on-highway engines. Kitting DPFs with clamps and gaskets ensures customers receive the right parts for the right repairs. Replacing clamps and gaskets while replacing the DPF reduces the risk of clamp or gasket failure which could potentially lead to damage or improper functioning of the aftertreatment system. Cummins will continue to sell DPF clamps and gaskets individually but DPFs will only be available kitted with clamps and gaskets.

## Warranty:

All Cummins genuine parts are engineered with the latest improvements, built, and tested to meet rigid quality standards. Plus, they come with full standard warranty coverage for up to one year, 100,000 miles or 3,600 hours of operation or specified maintenance interval, whichever occurs first, after the date of installation. For additional information, please refer to the Cummins Warranty Administration Manual for complete details.

**See reverse side for part numbers.**

**Contact your Cummins Sales and Service branch with questions.**

These DPF kits started to become available in early Q2 2020. Any individual DPFs that are currently in stock should be sold prior to moving to the new kitted part numbers.
