THE NEXT GENERATION OF POWER ARRIVES

The evolution begins

Introducing Cummins Centum Series™ Generators: a new and evolving line of generator sets designed to deliver a complete spectrum of power to meet global demands for more efficient and sustainable power. With next-generation performance, flexibility and sustainability, you get exactly the generator you want — without compromise.

A completely new approach to generator design. Centum™ Series generators represent a major shift in the Cummins approach to power system design: engineered in direct response to meet your precise power needs, you specify exactly the power — no more, no less. More power in a smaller footprint, i.e., Centum Series generators have the flexibility to take on any job under any conditions with the utmost performance, efficiency and reliability. With a long-term commitment to sustainability, Centum Series generators are designed to comply with any global standard.

Precisely what you need

All Cummins

100%. Every Centum Series generator is built from the ground up with 100% Cummins parts and components for a seamless system integration, top to bottom. Every consumable and replacement part is 100% Cummins built to fit perfectly, vastly simplifying routine maintenance and repairs. It means we can stand behind the Centum Series with a single-source warranty – one of the strongest in the industry.
