

Aftermarket Support

UK and Ireland

About Cummins

Cummins Inc., a global power solutions leader, is a corporation of complementary business segments that designs, manufactures, distributes and services a broad portfolio of products. The company's products range from advanced diesel, natural gas, electric and hybrid powertrains and powertrain-related components including filtration, aftertreatment, turbochargers, fuel systems, valvetrain technologies, controls systems, air handling systems, automated transmissions, axles, drivelines, brakes, suspension systems, electric power generation systems, batteries, electrified power systems, hydrogen production technologies and fuel cell products.

CUMMINS DISTRIBUTION EUROPE

Cummins distributors and dealers across Europe sell, distribute and service Cummins-branded products, through customer partnerships, service contracts, engineering support and customised product integration. The company's local presence guarantees a face-to-face relationship wherever its products are operating, ensuring our customers have access to reliable sales, service and parts support.

Western Ferries' Sound of Soay powered by twin Cummins 19 litre engines

CUMMINS UK AND IRELAND

Since 1952, Cummins has been supporting customers in the UK and Ireland through its service locations and a fully authorised Cummins dealer network.

Cummins provide aftermarket support for all Cummins powered products specialising in on- and off-highway market sectors such as automotive (bus), agriculture, construction, marine, mining and rail as well as power generation mission critical applications (hospitals and data centres).

Offering comprehensive cover through aftermarket support plans that focus on maintaining product performance and driving down total cost of ownership. Cummins delivers high-quality service support to their customers through its specialist workshops and dedicated on-site technicians across the UK and Ireland.

Products

ENGINES

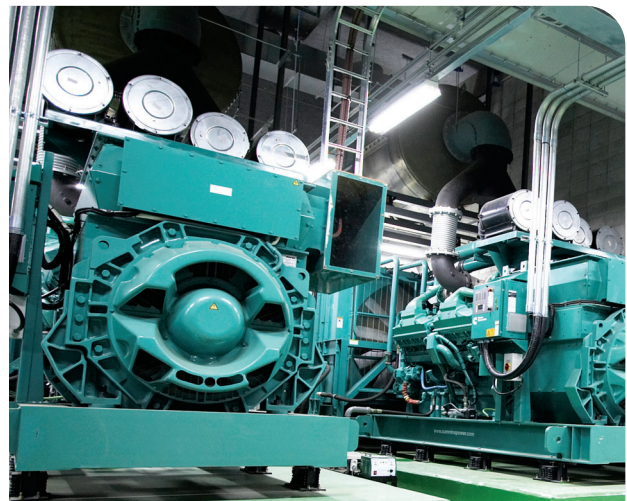

Cummins is the world's largest independent engine manufacturer, with a range of diesel and gas engines extending from 37 to 3132 kW (49 to 4200 hp), from the smallest (2.8 litres) to the largest (95 litres). Cummins offers power solutions for the following market sectors:

- Agriculture
- Bus, Coach and Truck
- Construction
- Industrial
- Marine
- Material Handling
- Military
- Mining
- Oil and Gas
- Rail

GENERATORS AND POWER SYSTEMS

Cummins is one of the leading providers of power generation systems in Europe. Cummins manufactures diesel and gas powered generator sets that deliver innovative, reliable and cost-effective solutions for the following industries:

- Commercial
- Data Centres
- Greenhouses
- Healthcare
- Marine
- Mining
- Oil and Gas
- Recreational
- Residential

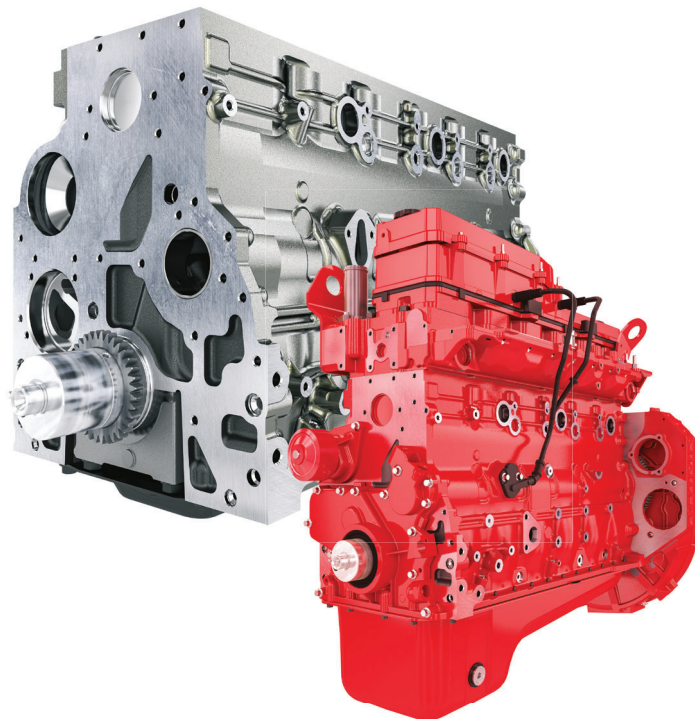

Product registration

Registering your Cummins engine and generator sets will help ensure that the Cummins service network in your area is prepared to support your engine and provide the services you need.

Genuine New and ReCon® products

- Over 150,000 different Genuine New and ReCon Parts for Cummins products
- Cummins ReCon engines built to meet exact Cummins manufacturing and remanufacturing specifications
- High-quality Genuine Cummins Parts at competitive prices
- Research and development focused on delivering continuous performance improvement for engines and parts
- Assurance that your Genuine Cummins Parts meet or exceed the performance of your original Cummins part
- Locally stocked parts from Cummins Logistic Centre based in the UK

Online Cummins parts catalogue

The website parts.cummins.com allows users to search for parts information using any serial or part number available on their Cummins engine or component including Holset® turbochargers, Onan generators, aftertreatment solutions and Fleetguard® filtration solutions. Customers no longer need to visit multiple sites to research Cummins associated parts.

CUMPAS

CUMPAS is an e-commerce tool that enables Cummins customers and dealers to perform parts order management functions in real time.

FEATURES:

- Latest parts pricing and availability
- Parts search functionality
- Order submission and shipment tracking
- View order history and the status of any current orders
- Connected to parts.cummins.com
- Manages core returns

Filtration and coolant

Cummins recommends Fleetguard® filtration products by Atmus Filtration Technologies. Having been developed for and tested on Cummins engines,

Fleetguard® products meet the highest performance specifications.

Fleetguard® provides a full range of filtration products for a wide variety of applications.

For fuel, air and lube filters, coolant, chemicals and more, Fleetguard® is your one-stop shop for the products you need to keep your equipment hard at work.

FEATURES AND BENEFITS:

- Extended uptime
- Reduced Total Cost of Ownership (TCO)
- Longer service intervals
- Increased operator comfort
- Reduced environmental impact

Lubricants and fluids

The Valvoline Premium Blue lubricants portfolio has been exclusively developed, extensively tested and officially approved for Cummins engines.

In partnership with Valvoline, a leading manufacturer of fluids, Premium Blue is used at first fill and the only aftermarket lubricant recommended by Cummins.

BENEFITS OF USING VALVOLINE PREMIUM BLUE:

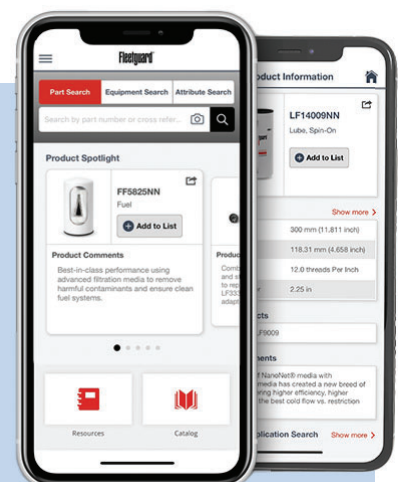

- Provides superior performance
- Extended engine protection
- Allows extended drain
- Reduces maintenance costs

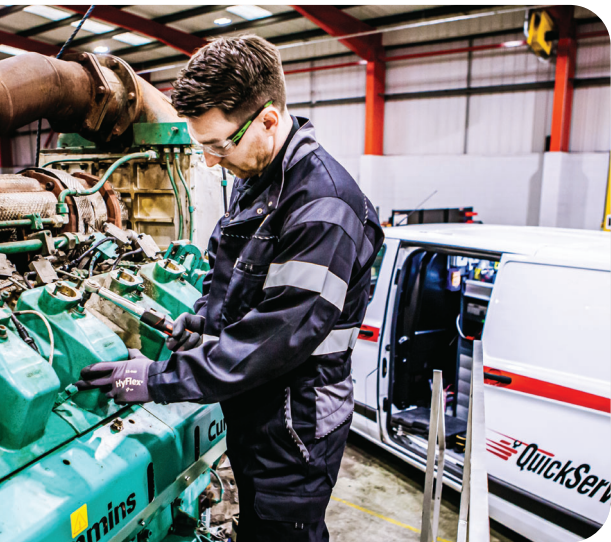

Premium Blue engine oils are a Cummins genuine part, available in a wide variety of viscosities, performance levels and container sizes. To find out more about how this product can benefit your application visit our website.

Fleetguard® product catalogue mobile app

The Fleetguard® Product Catalogue app allows users to easily find product literature, as well as part details and descriptions. Users are able to cross-reference parts using the part numbers from other manufacturers.

Service

Cummins provide comprehensive service support including specialist advice and technical assistance for:

- Engine overhauls & rebuilds
- Service requirements
- 24/7 service and repair (subject to agreement)
- Parts and consumables
- Customer service agreements

SPECIALIST WORKSHOP AND ON-SITE SERVICE SUPPORT

- A wide range of service and repair options on Cummins products
- Cummins fully trained and highly skilled service professionals have the capability and expertise to support your service needs
- Equipped with the most advanced diagnostic and repair tools
- Highly specialised workshops, that use the latest tooling and equipment

REMANUFACTURED AND REPLACEMENT ENGINES

- Cummins remanufactured and replacement engines are a cost-effective option that minimises downtime and gives customers the opportunity to keep their current equipment for longer
- Both remanufactured and replacement engines offer a great opportunity to maximise uptime by providing a like-for-like replacement that can be quickly and easily installed
- Cummins experienced aftermarket and engineering teams can deliver a complete and comprehensive package that maximises the life cycle of your equipment.

SERVICE AGREEMENTS

- Each service agreement is tailor made to specific requirements ranging from routine maintenance to scheduled engine overhauls
- Engineers will visit on a pre-arranged appointment to undertake the required servicing
- Includes regular testing, preventative maintenance, routine servicing and optional oil sampling

Cummins digital service tools

Quickserve online (QSOL)

QSOL gives you easy access to service information for over 15 million Cummins engine serial numbers, including over one million related documents. Search functions are easily performed using your engine serial number. View owners, service and diagnostic manuals plus engine specific campaigns, temporary repair practices and more. QSOL always puts updated information at your fingertips.

Guidanz®

Guidanz® is a suite of genuine service products, features and capabilities that maximise efficiency by streamlining processes associated with any service event.

Access the best features of the Guidanz suite from your smartphone or tablet through the Guidanz App. When paired with Cummins INLINE™ mini, Guidanz displays Cummins fault codes and other key engine information.
