

Marine kits for recreational vessels

Count on Cummins marine maintenance kits to keep you cruising safely when you're out enjoying the water.

Enjoy peace of mind for your Cummins Marine engine

For boat owners we offer Service and Onboard Kits intended for both planned and unplanned service interventions.

Our Service Kit contains the Genuine Cummins parts needed to service your vessel before you set off on the water. It is typically for planned maintenance on the engine at one of our Cummins service providers.

For added peace of mind, an Onboard Kit contains spare parts needed for an emergency repair when you're on the water, or in a remote location, with no access to a local Cummins service point.

Buying a kit will also save you money in comparison to buying individual Genuine Cummins parts as and when you need them.

Receive a free plastic carrying case with each Onboard Kit purchased

Save time and money by buying a comprehensive marine maintenance kit

Picture above is an example of the Onboard Kit, a free Cummins branded case is included.

Content	Service kit	Onboard kit
Fuel filter	✓	✓
